

Thinking Bridge:

Using the Bidding in the Play and Defense

With Dennis Dawson
National Champion

Duke City Bridge Club
Friday, January 12
9:30 – 11:30

You cannot play this game by memorizing a lot of rules. You are too likely to forget them, and there are just too many exceptions.

You must learn **how to gather the clues, then think through a hand one step at a time, focusing on what matters.** Then you will be able to tackle even the most difficult hands with confidence.

This class helps you apply what you've learned from the bidding (if you've been listening!)

Play 8 hands. Dennis will discuss each one after you've played it, showing how the clues were there to the winning play. Notes are included. You don't need a partner.

To register:

- \$25 per person if paid by January 5
- \$30 per person if paid after January 5
